- Update web pages and multimedia
- Troubleshooting network, hardware and software problems to staff computers and peripherals.
- Setting up and configuring conference facilities i.e audio & visual systems and interpretation systems.
- Setting up video conference systems and peripherals

Technologies: Java, Android Studio, Flutter, Dart, PHP, Laravel, Javascript, JQuery, MySQL, Html, CSS, Bootstrap, Wordpress

Arusha International Conference Centre - Arusha. *January 2018 – July 2019*

Internship as Information Technology Officer

- Setting up conference facilities such as audio & visual systems and interpretation systems.
- Troubleshooting network, hardware and software problems to staff computers and peripherals.
- Testing network equipment and devices.

Dflex International Ltd, Dar es Salaam & Arusha. *June 2014 – December 2018*

Software Engineer & IT Consultant

- Gather and analyze user requirements and software requirements to determine feasibility of design within time and cost constraints.
- Develop and direct software system testing and validation procedures, programming and documentation.
- Consult with customers about software system design and maintenance.
- Perform software bug fixing tasks
- Refactor code to improve code quality and overall system performance
- allow it to adapt to new hardware, or to improve its performance.
- Train systems' end users.

Smile Communications Ltd, Dar es Salaam. *Jan 2013 – June 2014*

Technical Support & Sales

- Configuring network devices for customers.
- Diagnose problems with routers and other network devices.
- Collaborate with sales teams to understand customer requirements, to promote sales of company products, and to provide sales support.
- Sell products requiring extensive technical expertise and support for installation and use, such as device handling equipment and computer systems.
- Provide technical and non-technical support and services to clients or other staff members regarding the use, operation and maintenance of network devices.
- Arrange for demonstrations or trial installations of network devices.
- Attend company trainings to become familiar with new network devices and new technology.
- Train team members on new devices and technology.

PROJECTS ACCOMPLISHED

AICC Mobile application.

Is an android mobile app am developing currently to cater for the Centre's needs. I will also develop the iOS version of it after the completion of this android version.

Human Resource Management Information System (HRMIS)

This is a web based information system I have developed and is used at Arusha International Conference Centre.

Technologies: Laravel (PHP- framework), Javascript, MySQL, Html,CSS, Bootstrap

Point Of Sale (POS)

This is a web based system I am currently finishing. This will be used for small scaled business like shops and supermarkets. It will be integrated with common payment systems in our area.

Technologies: Laravel (PHP- framework), Javascript, MySQL, Html,CSS, Bootstrap

Property Management System(PMS) for TUCTA(Trade Union Congress of Tanzania)

I have been a team leader of three developers at Dflex International assigned to develop a web based system for monitoring properties of TUCTA and its affiliates. We assigned different modules of the system to each of us three. We successfully developed and handed the product to the customer as well as training users and providing support.

Technologies: PHP, Javascript, MySQL, Html,CSS, Bootstrap

TASAF Database

I was part of the team at Dflex International Ltd which developed a database system for Productive Social Safety Net (PSSN) project of Tanzania Social Action Fund (TASAF) for capturing and evaluating beneficiaries of the project in rural areas.

Technologies: PHP, javascript,jquery, mysql, html,CSS

TACAIDS TOMSHA project

I participated fully in developing the Tanzania Output Monitoring System for HIV/AIDS.

Technologies: PHP, Javascript,JQuery, MySQL, Html,CSS, Bootstrap

FINAL YEAR PROJECT

I developed a Swahili – English dictionary which works on a Windows PC and android mobile phones. I successfully accomplished the project and got an A grade.

Technologies: Java, MySql

WhatsappTz

This is a whatsapp like android application which I am currently developing, just for fun.

Technologies: Java, Firebase

Uber clone to incorporate trucks and motorbikes

Is an android & IOS app am developing as I aim to sharpen my programming skills.

Technologies: Dart, Flutter, Firebase

PRACTICAL TRAINING AND SHORT COURSE ATTENDED.
